Cost:	\$20 Member \$30 Non - Member
Sponsor	Rick Engineering

Topic	Presentation on 2050 RTP
Speaker	Muggs Stoll SANDAG Director of Land Use and Transportation Planning

Charles Stoll, more commonly known as "Muggs", is the Director of Land Use and Transportation Planning for the San Diego Association of Governments (SANDAG) in San Diego, California. He directs a team of over 30 professionals in developing critical land use and planning initiatives for the San Diego region, such as the Regional Transportation Plan and Regional Comprehensive Plan. Previously, Stoll was the *TransNet* Program Manager for SANDAG. *TransNet* is the half-cent regional sales-tax transportation program for San Diego County which involved developing strategies for securing matching transportation funds, the development of new performance measurement systems and implementation of an innovative regional environmental mitigation program. He also had the interim responsibility as SANDAG's Communications Director for four months until the position was permanently filled in 2007.

Stoll joined SANDAG in April 2007 after spending over twenty years with the California Department of Transportation in their San Diego District Office where he gained experience in many functional units including project development and environmental analysis. He was the Project Director for the South Bay Expressway, a toll road developed through a public-private partnership arrangement. He began his involvement in the Transportation Research Board (TRB) while at Caltrans and has continued his activities as a member of the TRB Environmental Analysis in Transportation Committee (ADC10), where he assumed the Chair in 2009.

Stoll received a Bachelor of Science (B.S.) degree in Civil Engineering in 1983 and a Master's degree in Business Administration (M.B.A.) in 1985. Both degrees were earned at San Diego State University. He has been a Registered Professional Engineer in the State of California since 1988.

Stoll is a "native" southern Californian, and has lived in San Diego since 1980. He and his wife of over 25 years, Julie, have two teen-age sons – Alex, 19 and Daniel, 15.

since 1935

THE SAN DIEGO HIGHWAY  
DEVELOPMENT ASSOCIATION

## Mission Statement

To foster the timely, orderly, and efficient development of all planned transportation facilities in the San Diego region and to promote appropriate means to finance and maintain these facilities.
